Services

Educational/Training

Vizually Speaking provides custom designed informative, practical and educational training sessions on a wide range of topics relating to communication, behaviour and special needs. Our flexibility allows training to occur on or off site at a time that best suits your needs. Our trainers are experienced and knowledgeable, applying best practices while sharing current industry standards.

We take pride in, "Helping you to help yourself while helping others."

Support/Programming

We offer 1:1 support creating, programming and implementing individualized visual aids and strategies in home, school, work place, hospital or community. We understand how to empower an individual to achieve success and independence while overcoming personal and social barriers faced in daily living. Our ongoing support ensures that the individualized visual aids and strategies grow with your needs.

Autism

Vizually Speaking assists in building solid knowledge and understanding of Autism Syndrome Disorder (ASD) and its impact on an individual, their family and caregivers. We offer assistance in device programming, training, 1:1 support in home or community and various related presentations. Our ongoing support ensures that the individualized visual aids and strategies grow with your needs.

Family Support/Respite

We provide 1:1 respite support allowing family members an opportunity to rejuvenate or complete other daily tasks. These planned sessions are designed to support ongoing goals while implementing daily living skills and/or social relationships through the use of individualized visual aids and strategies. We offer support in home, hospital or community.

Senior Services

Vizually speaking understands that aging individuals may be faced with challenges in processing, organizing, remembering or responding to information. Through the use of individualized visual aids and strategies we empower individuals, improving their quality of life and independence. We build on an individual's strengths, potential and personal needs assisting in overcoming individual and social barriers faced in daily living.

Behavioural Support

Vizually Speaking recognizes that individualized visual aids and strategies reduce undesired behaviours. They enable an individual to participate with greater ease and success in transitions, expectations, organization and the communication process. Our ongoing support ensures that the individualized visual aids and strategies grow with your needs.

And more.....

EVERYONE benefits from Visual Aids and Strategies.
